

## **Kites, Whirligigs and Other Flying Things!!**

Summer Breeze, flying things

Challenge to artists is to make, paint or photograph a flying thing including but not limited to kites, wind powered sculpture, balloons, and yard art. This show will accept photographs, jewelry, paintings, sculptures having to do with flight. We are looking to show, natural or man-made flying things. Given the space restrictions of our new location, scale models of whirligigs are acceptable.

This show is also open to students ages 11-18. Since all artwork must be gallery ready, meaning framed if 2D, sturdy if 3D, the gallery will assist all student artists by offering donated frames for 2D artwork in an effort to avoid framing costs. It is part of our education mission to provide a professional gallery experience for all of our participating artists. "Gallery ready" is part of that experience. Prizes and Judge will be arranged.

**Kite workshop for children, 5+, will be held prior to opening reception on Saturday, July 20, 2-4:30. Young children must be accompanied by parent, \$15 fee per kite applies. Discount for family group. Class will be limited to 10 students. Sign up at Gallery.**
